

Tango Telecom Press Release 14th March 2013

Tango Telecom's iAX™ platform delivers advanced messaging services for XL Axiata in Indonesia.

Jakarta, Indonesia, 14th March 2013 - Tango Telecom (www.tangotelecom.com), the leading provider of Policy & Charging Control and Next Generation Messaging Solutions today announced the successful delivery of its advanced iAX™ Next Generation Messaging Platform to XL in Indonesia, part of the Axiata group, in conjunction with its local partner Lintas Teknologi.

The announcement was made during Tango Telecom's participation in the Irish Government's Trade Mission to Indonesia, Singapore and the Philippines. The Trade Mission was led by the Minister for Public Expenditure and Reform, Brendan Howlin, T.D.

XL's deployment of Tango Telecom's messaging platform will enhance its message delivery efficiency and easily scale to handle the operator's increasing subscriber base.

"Tango Telecom's solution offered us the unrivalled performance, scalability and the advanced feature set needed to enable us to provide the highest service levels to our subscriber base as we continue to grow," said Hermansyah, VP of Network Development, XL Axiata. "The system was quickly deployed and rapidly integrated with our growing network. With Tango Telecom, we can provide a better service to our customers."

Mayoor Mahendra, VP of Sales for APAC, Tango Telecom comments, "We are pleased to have been chosen by XL Axiata for this critical component of their service offering and we look forward to working together in the future as a valued and reliable supplier to XL."

About Tango Telecom

Tango Telecom is the leading global provider of Data Monetisation Solutions for evolving mobile networks. Our high performance solutions are deployed at the core of some of the world's most demanding networks including América Móvil, the Axiata Group and the Telenor Group and currently support over 130 live systems serving 650 million subscribers in 40+ countries.

The Tango Telecom Data Retail Engine, the Tango DRE™, drives service innovation and service velocity to successfully monetise the growing demand for mobile data while optimising the use of network resources. Tango Telecom's solutions are fully virtualised and cloud-available globally, enabling operators to benefit today from the many advantages of network functions virtualisation (NFV).
